PHONE SETUP

VERIZON ONETALK T67LTE 4G DESK PHONE

INSTRUCTIONS:

NOTE: Do not connect any other cables. This device will not connect to the existing network or existing phone cabling.

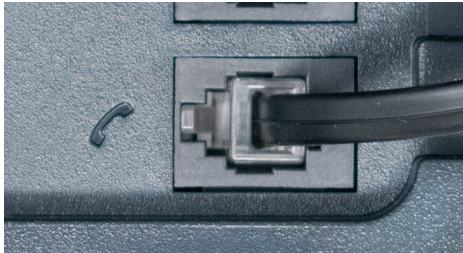

1. Unbox phone. The box should include a phone, phone stand, power cord, and handset.

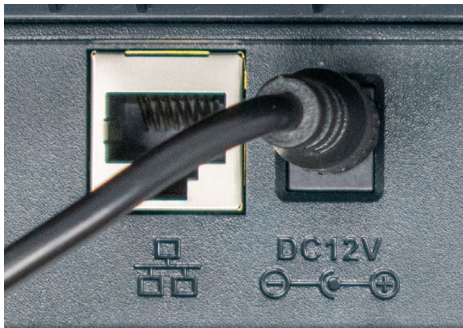

2. Attach phone stand. To attach the optional phone stand, slide the stand in from left to right into the larger rectangular holes until it securely snaps in place.

3. Plug in handset to the port with the handset icon.

4. Plug in power cord to the port labeled DC12V.

5. The phone is ready to be connected to power.

NOTE: Do not connect any other cables. This device will not connect to the existing network or existing phone cabling.
